The Views of Mr. Cleveland as Given by a Personal Friend. Mr. Bayard Has Undoubtedly Asked Great Britain For Fifteen Days' Grace Before Using Force

Ev Southern Associated Press. WASHINGTON, April 26.—At noon to-eay the Nicaraguan Minister, Dr. Guz-toan, was without advices from Maragua as to the decision reached by the Nica-Jagua (loverament regarding the Brit-ash ultimatum, or as to whether British Proops have been actually landed in the event of non compliance. His ad vices at a late hour last night indicated

the event of non combinance. His advices at a late hour last uight indicated that there would not be an immediate compliance with the British demands. Sieraragia has not the money in her pational treasury to pay the indemnity In full, but it is believed that arrangements can be made in this country to secure a loan equal to the amount, for which ample security will be provided. Notwithstanding the reports from London that nothing has been heard from the Washington Government indicating the desire that Great Britain ghould be less barsh in her exactions. It is again positively asserted that Mr. Jayard, on the 21th instant, was instructed to ask Lord Kimberly to give bicaragian two weeks in which to pay the indemnity in London, instead of mider directs at Corinto. Mr. Bayard analy have been unsuccessful in securing Great Britain's compliance with the request, but that such a telegram was tent to him there can be no question.

THE PRESIDENT'S VIEWS.

WASHINGTON, April 26.—An intimate friend of the President—one entitled to speak with authority, and who has talked with the President about the greesent crisis in Nicaragin—says this Giovernment, while fully alive to the recessity of maintaining the autonomy at American States against forcement. Recessity of maintaining the autonomy but American States against foreign eneroachments, can find no warrant for anterfering to prevent Great Britain or guy other country securing reparation for an offense similar to that charged against Nicaragna.

Wilde looked careworn and anxious, and was much thinner than usual. The fact that he had his hair cut short added to his aitered appearance. Taylor maintained his air of unconcern. Both prisoners pleaded not guilty. The opening speech of the counsel for the prosecution was a repetition of his previous arguments. arguments.

Cincinnari, April 26.—A special to the Post from Montgomery, Ala., says: A sequel to the Minter-Dudley tragedy of a week ago occurred this morning in Selma. Ed. Dudley, a relative of the Dudley tragedy, and Robert Browning, related to Minter, met in the saloon of Henry Cassen at noon to day and after a few words, became involved in a shooting affray. Twenty shots were exchanged and Browning was killed, while Dudley, who received several wounds, is so seriously but that his life is despaired of. Two men, who, it is believed, encouraged the difficulty, have been arrested and are now in juil.

FRANKFORT, Ky., April 26,—The block of store rooms and tenement houses, known as the Encel block, was destroyed by fire last night. James Yeager, an old man, and his two children, aged 5 and 9, were burned to death, and half a dozen families barely escaped from the ill-fated buildings. There is little doubt that the fire was of incendiary origin, as all parts of the building took fire at once. The buildings are thought to be well insured, and the loss on the property will not be over \$4,000.

Richmond, Va., April 26.—Norfolk dropped another game to Richmond this afternoon, but the score was close. Both sides played much better than yesterday, and the finish was very exciting. Lawson. Norfolk's heavy hit ting pitcher, was run into the game at a critical stage of the minth inning and had he been able to hit the ball, the victory achieved by Richmond would have been characterized by the six letters "defeat." He could'nt find the sphere though, and thereby hangs a tale.

sphere though, and thereby hangs a tale.

Dinsmore was given his first trial in the box for the Bluebirds and pitched a very good game. His twirling proved yery delusive to the Marines, and they could not do much with him.

McDonald, an infantile twirler, was in the box for Noriolk, and on the whole showed off very well, indeed, He doesn't possess a great amount of speed, but has the faculty of causing batsmen to pop up thes, and therein lies his merits. lies his merits.

They fought a very good uphill fight, and although defeated, deserve great credit for the manner in which they worked together. Hager, their course fielder, showed marked ability in handling flies. He received eleven sky scrapers, and took them all without an error, and very materially aided in holding Richmond's score down to four runs.

Groves captured a fly from O'Hagan's bat after an unsually long run in among the carriages and so quickly did he throw it in that Corcoran, who was on first, was unable to reach second. The feature of the game was Wells' home run hit, which was the longest drive made on any grounds this season. Score:

REPORT OF TRADE.

The Signs of Improvement Perceptible and Growing. By Southern Associate i Press.

By Southern Associated Press.

New Yorks, April 26.—R. G. Dun & Co.'s weekly review of trade to morrow will say: Neither the rising in speculative markets nor the steady gain in industries has ceased, and it is wholesome that there are fewer signs of hesitation in the productive industries than in speculative prices.

Wage strikes grow more numerous and cause some trouble, and retail demand lags behing wholesale sales and jobbing purchases behind production in some branches, but through many conflicting reports the fact shines out that the industries are gaining, not with a rush and a whirl, but more safely.

that the industries are gaining, not with a rush and a whirl, but more safely.

It is less clear that railroads are increasing their earnings, or that over production of cotton will be cured by the advance of 13-8 cents in price, or that cornering short sellers of wheat will help to market the large surplus. But revival of activity in all these directions if possibly excessive in some, helps confidence to take the throne so long held by distrust.

Recovery is not often mathematically equitable. When the load of depression if lifted and men find that better things have come to stay, there must be many contradictory changes. Quite a number of works have advanced wages during the week, but strikes to combel an advance possible for the set.

must be many contradictory changes. Quite a number of works have advanced wages during the week, but strikes to compel au advance, possible for but not for others, have grown much more numerons.

Some shops are closing for want of orders, but a larger number are resuming work. Prices of shoes and cotton goods are rising; wool and woolens are lower. It would be a distinctly ununtural movement, inviting only distrast, if it were sympathetic and an equal step in all branches.

Cotton mills are getting more money for goods and have quite generally advanced wages. Consumption of northern spinners, at the maximum would be in eight months 1,350,000 bales, but they have actually taken 1,950,000, and have a profit on 600,000 bales, and control of over 400,000. The consumption is large, and advances seem to be warranted.
